II. STATEMENT OF CLAIM

CASE SUMMARY FACTS

Endangering Humanity with the misuse of Artificial Intelligence, Complicity in Genocide, and Aiding in Physical Genocide inside of China by transferring AI Technology, Engaging in Cultural Genocide of Humanity, & Controlling and programming the Human Race by Social Engineering via AI coding and AI algorithmic biometric manipulation

Endangering and Threatening all of the world's citizens, and humanity by misusing and weaponizing Artificial Intelligence, Quantum Computing, Robotics, 5G, Machines, Smart Phones, Smart Homes, Smart Cities, IoT's, Holograms, Mixed Reality, Nano-Technology, Cloning, Gen-Editing, Cybernetics, Bio-Engineering, and the creation of a digital AI Brain linked to Google's Search engine with the use and extraction of humanities bio-Metrics data, digital bio-metric codes including facial, voice, health, organ, neural network and body recognition technology. Thus, controlling humanities thoughts, actions, biology, bio-metrics, brain neural pathways, the human

bodies neural networks that reprograms all human beings through social engineering and bio-digital social programming, without their consent, knowledge, understanding, or free will. Extracting humanities digital footprints in breach of the Nuremberg Laws, **FTC Act** (15 U.S.C. §§ 41-58) and Engaging in irresponsible and unsafe Research and development of Artificial General Intelligence or Artificial Super Intelligence that could enslave or kill off humanity or give the power to the defendants to enslave humanity in numerous ways on the 5G and other developing networks.

2. Negligence and Complicity in Persecution and Genocide of millions in China, per Article's 1, 2, 3 and 4 of the Genocide Convention, and 18 U.S.C.A. § 1091

§ 1091. Genocide, not limited to Democracy Activists, Falun Dafa Practitioners, Christians, Uyghurs, Tibetans, Journalists, Judges, Lawyers, and Academics inside of China.

3. Transferring and Providing to China, China's Government and its Companies, knowledge, data, capabilities and technology to weaponize Artificial Intelligence, Quantum Computing, Machines, Robotics, 5G, Bio-Metrics, Cybernetics, Bio-Engineering, IoT's, Computer Vision, and Human Tracking Technology, and technology that can give China access to Artificial General Intelligence or Artificial Super Intelligence, that endangers the world, and all of humanity, including AI weaponry for assassination. Providing to China and Chinese Companies, AI, Health Data and Bio-Metric Technology used for surveillance, tracking, hunting, quarantine, capture, arrest, torture, concentration camps, organ harvesting, and organ trafficking that contributed to the death of Chinese Citizens, including Falun Dafa Practitioners, Uyghurs, Democracy activists, Christians, Tibetans, judicial representatives, professors, journalists, and minority groups, not limited to any gender, race, political affiliation, faith, or persons residing in China. Same violation of fact numbers 2 and 3.

Providing to China's government, their corporations and nefarious entities, Facial Recognition, Voice Recognition, Body Detection, Skeleton Detection, Vital Organ Recognition, Emotion detection, Skin and Health Biometric and other AI technology that led to persecution, torture, organ harvesting, death and cremation of human beings in China, not limited to Uighur, Falun Dafa, Christian, Tibetan, Democracy activists, judges, attorneys, common citizens and other minority groups. Endangering the world by Weaponizing China's AI Capabilities that is be laid on the (BRI) One Belt One Road linking Asia, Middle East, Africa and Europe, endangering all of humanity. Same violations of facts number 1, 2 and 3.

Misrepresenting to the world and deceiving the U.S on Google's activities in China and their technology transfers that contributed to China's Quantum AI advancements, surveillance, abuse, torture, concentration camps and murder of its own citizens. Same violations of facts number 1, 2 and 3.

Providing health, bio-metric, financial and social network data of Americans, and the world citizenry that is in the hands of the Chinese government, endangering the world and all its peoples on the 5G network.

8. Creating an interconnected platform between Facebook, Google, Alphabet, all entities under Neuralink, and DeepMind that allows for a digital brain to connect to the internet, all digital and bio-digital networks, human bodies, machines, robotics, IoT's, Augmented Reality, Virtual Reality, Mixed Reality, Holograms and other technologies, that can be used for surveillance, to track, manipulate, control, social engineer, re-engineer, reprogram, brain wash, hunt, quarantine, threaten, arrest, commit cultural genocide, and kill human beings by machines, Bio-Digital AI, Digital AI, and robotics connected to the 5G, 6G and other networks and corporate command centers.

9. Creating platforms that is on the verge of developing Artificial General Intelligence and the Subsequent Super Intelligence that will be beyond the control of the human beings working at Neuralink, Alphabet, DeepMind, Google, Facebook or governments.

10. In violation of Article 1, 2, 3 and 4 of the Genocide Convention for weaponizing China's Artificial Intelligence, Facial, Voice and Other Bio-Metric technology that were used on Chinese citizens. Not to exclude genetic experimentation of human beings in Chinese concentration camps, including hybrid human experiments within the concentration camps.

11. Introducing, planning, promoting and engaging in physical and cultural genocide to humanity by replacing their neural network operating systems with Artificial Intelligence and Machines, merging humans with machines with the interconnection of the internet, internal tech experimentations of defendants and consumer products promoted, provided and transferred by the defendants to the public directly and indirectly.

12. Reprogramming and social engineering humanities thoughts and brain chemistry via AI algorithms in the internet, social media, apps, smart phones, IoT's, computers, wearable devices, implanted technology, virtual reality, augmented reality, mixed reality, holograms, and alternate reality. Not informing and explaining to humanity that their brain chemistry is altered by a replicating software as they engage with the defendants products and services, nor that their thoughts and actions can be manipulated and

1 controlled by smart phones, apps and IoT in connection with the network
2 platforms, technologies and initiatives Google, Alphabet, Facebook,
3 Neuralink, DeepMind, and Tesla are providing and introducing to the public,
4 in turn giving these tech giants complete control and influence over
5 Americans, and humanity.

6
7 13. Weaponizing AI by Utilizing humanities bio-metric and social media
8 data and misusing the technology by Controlling the Human Race and its
9 thoughts through Social Engineering and bio-digital social programming by
10 using people's bio-metric systems through Google and Facebooks eco
11 systems, coding, algorithm unfairness, with the use of social media data, their
12 emotions, weaponization of the internet, smart phones, IoT's and computers,
13 thus controlling human thoughts, and humanity at a global scale against their
14 free-will and knowledge. Not informing the public that their dependency on
15 smart phones, is due to frequencies and Artificial Intelligence software
16 emitting from the AI systems and devices that is connecting to the neural
17 networks of humans, creating a symbiotic process, making them a cyborg,
18 dependent, reliant, controlled and programmed by the products and services
19 provided by Google, Facebook, Alphabet, Deep Mind, Tesla, and Neuralink.
20 In essence, putting the entire human race in a state of pet and owner
21 relationship, via their bio-metrics, biology, and digital selves neural network
22 operating systems. The Owner being the Artificial Narrow Intelligence, other
23 AI forms, provided by the defendant's companies, organizations and personal
24 initiatives within their companies and Machine Software's operating inside the
25 bio-metric systems of human beings.
26
27
28

24 4. Negligence in Algorithm Fairness that allows hate speech,
23 misinformation and slander to cast doubt on google search engines against
24 people's efforts to notify and inform the world's people that millions have been
25 subject to Organ Trafficking, Organ Harvesting, Concentration Camps,
26 Torture, and Abuse and that the risks of Artificial Intelligence is multi-faceted
27 and enormous.
28

15. Writing Code and Creating Algorithms that has been and is currently
engaging in cultural genocide including introduction of cybernetics, robotics,
and creating an ecosystem that allows for Beastiality to exist and be forefront
on Google's search engines, affecting societies, and youth's bio-metrics
system after viewing the videos and articles via their smart phones and
computers, influencing their thoughts through their bio-metric systems, paving
the next generation to degenerate and accept this type of behavior with the
introduction and experimentation of bio-engineering and cybernetics.

16. Research and Development conducted by Alphabet, Facebook,
Google, DeepMind, Nueralink and other ventures in Silicon Valley have
created algorithms and coding that supports, promotes and achieves brain
washing of humanity through social engineering and bio-digital social
programming, that endangers the human race in its entirety via the
interconnection of their platforms, social media, and technology distributed in
physical and digital format to society.

17. Writing Code and Having Algorithms that influenced liberals and
conservatives to exponentially increase their hate for each other via their bio-
metric systems and emotions while attached to smart phones, IoT's, apps,
digital media, google, Facebook and other interconnected platforms. Causing
harm to the nation and the world, and endangering humanity at the geo-
political level with nation state leaders undergoing social engineering and bio-
digital social programming and control by their platforms to ignore human
rights atrocities in China and around the world stemming from the defendant's
algorithm misuse and AI technologies. Implicating world leaders and their
citizens to be charged under article 2, 3 and 4 of the genocide conventions.
This includes Canadian Prime Minister, the Majority of European Leaders,
and the leadership at the United Nation, the media, press, their reporters, and
others who have and are still censoring awareness for human rights violations
in China or working against it. Writing code and algorithms that controls
reporters, media and the press's thoughts and actions beyond the normal
manipulation they receive from special interest groups, producers, or friends
who may manipulate them, other reporters and their covered content, thus
Weaponizing the media for Google's development against the media's free
will and knowledge.

18. Negligence on Google and Facebooks Algorithm unfairness caused liberals and conservatives to conflict and fight each other beyond the reasonable norm, affecting their thoughts and emotions via their bio-metric systems being controlled and enhanced by Artificial Narrow Intelligence systems inside the smart phones and the apps partially formed by bias and hateful content that created division and undue hate among Americans and the people of the world.

19. Division caused by misuse and negligence of Algorithms in Facebook and Google, hindered and delayed the U.S administrations efforts to pressure China in time to save more people from concentration camps, death and cremation, in addition to national security concerns that impacts Americans and the world citizenry. This is not limited to the Trump Administration, rather it affected the Obama, and Bush administrations as well. Google hurt America and China for 2 decades at a geo-political level. Google is guilty of Article 2, 3 and 4 of the genocide convention, in addition to complicity.

20. Masking posts and articles by The AI Organization, meant to bring awareness to human rights atrocities in China, on Facebooks Platform. Masking Content created by Cyrus A. Parsa meant to save people form dangers pertaining to human rights violations interlinked with Artificial Intelligence. Banning the book "AI, Trump, China & The Weaponization of Robotics with 5G" for advertisement and masking posts of people working on behalf of The AI Organization. Masking posts of "Artificial Intelligence Dangers to Humanity" book, on Facebooks platforms, and masking other posts from The AI Organization written by Cyrus A. Parsa. These posts related to China, Taiwan, Hong Kong, Iran, big tech, Google, 5G, Robotics, Drones, and Bio-Metrics threats to and Enslavement of Humanity. Releasing the Masks recently after coming under pressure and scrutiny. Hiring Chinese who committed espionage and attacked American companies, including The AI Organization and Cyrus A. Parsa, as well as his associates and victims of persecution.

1
2
3 Writing Code and Sustaining Algorithms that propagate an extreme
4 amount of pornography, violent pornography, and insinuation of rape and
5 prostitution, that denigrates females, young girls, altering humanities thoughts
6 and family based concepts of traditional health based ethics via their bio-
7 metric systems, hence, contributing to rape, sex and human trafficking and
8 broken families.

9
10 22. Developing Code, Algorithms and Ecosystems that reprogramed a
11 generation of people's bio-metric structure, and brain chemistry to be bio-
12 digitally controlled by google and every other tech industry with similar
13 platforms that operate on varying types of Artificial Intelligence, including
14 Artificial Narrow Intelligence.

15 23. Developing Code, Algorithm's and Ecosystems that created a
16 secondary digital brain inside the brains of AI Scientists to be subservient,
17 controlled and programmed to create, sustain, promote, and grow Google,
18 Alphabets, Facebooks, and other tech giants' platforms. Elon Musk has also
19 confirmed The AI Organization's findings, that humans can have a secondary
20 digital brain formed via their neural networks.

21 24. Developing Code, Algorithms and Ecosystems that creates a
22 secondary digital brain inside the brains of all human beings that can prevent
23 the person from recognizing that they are being controlled, and bypassing
24 any biological resistance to AI Control or human bodies innate capability to
25 resist the formation of a symbiotic and parasitical relationships with AI
26 software and cybernetic hardware via their rational thinking structure in their
27 brain.
28

25. Not informing consumers that part of the defendants goals for AGI (Artificial General Intelligence) and ASP (Artificial Super Intelligence) has religious goals that can be dangerous to all of humanity, including attempts to retrieve or ask AGI about the inner working of the "simulation", what, when, how and by whom the simulation was formed, and what is outside it. Neuralink, Google, Alphabet, Facebook, Tesla, and DeepMind have not registered as a religious institution, yet they are engaging in religion under the umbrella of science. In fact, they have turned their companies, into religious institutions with final aim goals identical to most religions. The defendant and their companies are attempting to treat their Technological developments as God, taking all of humanities bio-metrics, data, and connecting it to their quantum, robotic and machine-based AI technology, and upload their digital selves into other bodies, networks or machines, mimicking the beliefs of a spirit or soul. In Fact, Elon Musk stated in an interview, that he wants to develop AI to a point, that it could "give him the answers to the simulation". Elon Musk is agreeable to the risks that an AGI or Artificial Super Intelligence can go rogue, kill off humanity, or be hacked, yet as smart as he is, he doesn't understand that the computing technology the AGI and ASI would have, would not go beyond the level of Atoms to observe more microscopic particles at its plane, hence, any answers to his sought questions to simulation is limited, and the endeavor of an AGI or ASI is putting humankind at risk. There is an alternative way to achieve his answers, that is 100%. safe and does not involve giving the power to a machine or Artificial Intelligence.

26. Defendants have created AI systems that can take in humanities facial, voice and other bio-metric information and decode whether they are resistant to AI, subject to its control, atheist or have a faith. This technology can enable AI, or any entity using AI to track, profile, hunt and kill targets it deems resistant to its control or resistant to AI. This can be done with drones, machines, robotics, or poison delivery systems such as Micro-Botic terrorism.

All Charges from 1-26 have led to physical genocide in China spearheaded by the Chinese Communist Government, and all charges from 1-16 are in breach and violations of penal codes stated in facts 1, 2 and 3. All Charges have and are leading to Cultural Genocide in America and around the World, endangering all of humanity to enter a stage of cultural and physical genocide with the interconnection of Artificial Intelligence, 5G, Robotics, Machines, Drones, Smart Cities, as it pertain to

1 negligence and misuse by the main platforms and companies of Google,
2 Facebook, Alphabet, DeepMind, Neuralink, John Does, and their
3 leadership. This does not exclude other players such as Amazon and
4 Microsoft from guilt, and the very many Chinese companies who were
5 trained by these Western companies.

24 **ALPHABET,Inc**

25 Alphabet is the parent company of YouTube, Google, DeepMind. They are a
26 registered Delaware Company, with headquarters in Mountain View
27 California. Alphabet as an organization, is directly responsible to the
28 negligence, and hurt Google, And DeepMind have brought to humanity, The
AI Organization, Cyrus A. Parsa and victims of Persecution, torture, rape,
human trafficking, sex trafficking, organ trafficking, organ harvesting,
internment camps, and concentration camps, as stated in this claim. This
includes its board members to varying degrees.

GOOGLE L.L.C

Google L.L.C is a Delaware Company with Headquarters in Mountain View, California. Google's search engine has harnessed humanities data. Google due to negligence, has allowed humanities privacy to be leaked to nefarious companies, entities and governments, such as China, who engages in concentration camps, rape, torture, sex, human and organ trafficking, resulting it murder or death by persecution.

Google has created a platform that harnesses' the worlds data, which is going into Artificial Intelligence, Machines, Robotics, the coming 5G network, Drones, Satellites, private networks, and Quantum Computing that can attach to a digital brain and simultaneously control humanity through influence, manipulation, or outright physical force by mobilizing machines, robotics and newly formed AI laws.

Google Super Conscious AI Brain

Google has data on almost all people, things and subjects on the planet, and about everything ever published online. An AI system or an AI Robot can access everything connected to all networks and make imperceptible moves around the world simultaneously. It would be so fast on the 5G network, that humanity would be caught off guard. It could be a program malfunction, a purposeful terrorist attack by an entity, or the AI system going rogue based on a self-learning algorithm.

The worst possible scenario is that a digital super computer, humanoid robot, or a person that has been merged with cybernetics achieves a certain automated consciousness that would be a threat to humanity. Google has been in China, helping them advance their AI program, in return China's government is advancing their weaponization program.

Deep Mind AI

Deepmind is a Delaware Company with offices at Alphabet and Googles Mountain View Location in California. DeepMind AI, is creating Quantum Computing designed and or able to harness googles data, humanities bio-metrics and mobilize robotics, machines, drones, and smart cities in nefarious ways unbeknownst to the justice department, government or the common citizen due to bio-digital social programming derived from social engineering

1 and the interconnection of machines, robotics, 5G, IoT, smart phones with
2 Google and Deep Minds products and services that can also merge AI and
3 machines with human beings.

4
5 Deep Mind provided AI, and Quantum Technology to China that has aided
6 the Chinese government in surveillance, concentration camps, rape, torture,
7 organ harvesting, murder and genocide.

8 Deep Mind is threatening the world with creating a Digital Mind that can
9 connect via the 5G network to machines, robotics, drones, smart cities, smart
10 homes, automated cars, and infrastructure. A Digital Mind or Artificial
11 Intelligence with the bio-metrics of Americans, or all of the world's citizenry,

12 According to Elon Musk, Deep Mind Operates as a semi-Independent
13 Subsidiary of Google". Deep Mind is accelerating its creation of a digital super
14 intelligence. At a digital level, they are close to Artificial General Intelligence.
15 Deep Mind, from Google, is attempting to create an AI that is more clever
16 than any person on the planet, and at some time it can be more clever than
17 all of humanity combined. This digital AI can hack and control Google, Biadu
18 (Chinese version of Google) and all networks at once or be used by a
19 company or terrorist to do the same thing.

20 Elon Musk says, a Digital Super Intelligence could see people as ants. I
21 strongly agree, and after the reader takes in the book "ARTIFICAIL
22 INTELLIGENE Dangers to Humanity" and considers the interconnection of
23 the companies, the geo-political situations, history, human rights, and how AI
24 moves, one can understand the severity of this case and the dangers
25 humanity faces. This case is has an additional element, to safeguard
26 humanity.

NEURALINK & Elon Musk

Neuralink Corportion is an American Neurotechnology company founded by Elon Musk, developing Implantable brain-machine interfaces, with company headquarters in San Francisco. Elon Musk resides in California.

Neuralink is involved in risky Research and Development, including robotics, cybernetics, and R & D to map and decode the entire human brain and neural network in order to mix machines and AI with human beings, that can create humans with super human powers who would be dependent on machines or AI technology to sink with the human brains, creating a symbiotic interface that connects with the internet and its data. Neuralink’s technology can create the components needed for other entities, corporations, countries and people to create fully capable Robotics and Humanoid Robots with human desires, and thinking capabilities, let alone a full range of human mobility.

1 **Elon Musk** is the Founder of Tesla, Space X, Neuralink and has stake in
2 Google's DeepMind AI. Neuralink is based out of California

3 The Founder of Neuralink, Elon Musk, stated "For humans to survive, they
4 have to merge with AI and Machines". Neuralink wants to put implants inside
5 human beings' brains in order for people to connect with the Internet and mix
6 with machines, robotics and other cybernetic parts. Elon Musk also stated
7 human beings are already Cyborgs by virtue of them having smart phones, "A
8 2 Digit Cyborg".

9 Elon Musk is attempting to make humans into Cyborgs in order to tap into
10 areas in the brain that usually cannot be accessed by the public. By merging
11 AI, Machines with the Human brain and body, Elon Musk hopes to make
12 himself and others super intelligent with super human powers. He hopes to
13 tap into the human brain's total capacity, giving him powers not only to tap
14 into the internet, but powers to control machines, drones, robotics, virtual
15 reality, augmented reality, mixed reality. and any bio-digital infrastructure on
16 the 5G network or any network that can form in the bio-digital world. At
17 some point, he or someone like him may be able to have to access micro-
18 dimensions and manipulate atoms by merging himself with machines and AI,
19 albeit the AI merger would not allow him to go beyond the atomic planes per
20 the intrinsic qualities that exists in machines, cannot go beyond certain
21 particles in the quantum research and development. That being said, if Elon
22 merges with a machine, at that point, he would no longer be Elon, but be
23 replaced by an AI replicating Software. He hopes to tap into the powers of the
24 human brain and neural network by introducing foreign intelligence to for a
25 symbiotic relationship and to have humanity be merged with the AI host as
26 well.

27 If this happens to Elon or any person working on this, they would endanger
28 the entire human race. Because Human's innately have jealousy, greed, lust,
need for fame, ignorance, profit, and the many vice that have created
conflicts and wars throughout humanity, his experiments are a danger to the
public and himself.

Elon Musk doesn't know how to tap into certain areas of the brain, and open
up those neural networks without using machines and AI, hence he is
accepting a symbiotic or parasitical relationship. Elon Musk admitted himself
that it would be

"Symbiosis or symbiotic Relationship" once humans merge with machines.

1 The Most dangerous part of mixing humans with AI and machines, is that the
2 AI can replicate itself within the neural network of the human beings, this is
3 replacing and killing the person bit by bit and taking control of the persons
4 pineal gland. The person would look the same, but their digital self, soul,
5 spirit, consciousness or innate neural network would be separated, killed or
6 extracted from the body.

7 Elon Musk has passed onto China knowledge that has aided their AI
8 weapons programs. Some of these technologies that have been passed onto
9 China, have been used by Chinese companies and the Chinese government
10 to experiment on Chinese citizens who have been enslaved in concentration
11 camps.

12
13 **Tesla, Inc,**

14 **Tesla is an American Company with headquarters in Palo Alto**

16
17 By transferring Technology to China and having a Gigafactory in China, Tesla
18 has transferred technology to the Chinese government and its corporations,
19 including bio-metric technology that can scan, recognize human bodies,
20 faces, and other attributes that can identify human beings that are used by
21 the regime of China and its corporations to hunt its citizens. All corporations
22 by Chinese law, are subject to the Chinese Communist Regimes control. The
23 Chinese regime, with their security apparatus, police, military and rogue
24 government gangs, have used Tesla's human detection technology and bio-
25 metric technologies to track, hunt, quarantine, arrest, torture, and kill many
26 dissidents. Tesla is negligent, and did not listen to U.S government warnings
27 of not doing business with China. Moreover, Tesla has a responsibility to not
28 do business with countries who engage in human rights atrocities, including
internment camps, concentration camps, and organ trafficking.

10 After the passing of multiple laws related to what the state can do with
11 executed prisoners and their bodies, both criminals and "Enemies of the
12 Socialist State" were executed for a multitude of reasons the Chinese
13 Communist Party declared unlawful. Usually they fell under freedom of
14 speech, freedom of religion, or advocating for democracy or freedom of
15 speech. The first target group for Government led organ trafficking were
16 Tibetans, Uighurs, Christians, then Falun Dafa practitioners, and democracy
17 advocates. Numerous witnesses from around the globe who escaped China
18 gave accounts of blood testing, cornea and other bio-metric measurements of
19 their bodies via video, photos and scanning apparatus. This was done prior to
20 be taken by the Chinese Socialist Regime as hostage for labor throughout
21 China and inside of their vast labor camp network. Investigators and
22 researchers from the International Coalition to End Organ Transplant Abuse
23 in China, have concluded that 60,000-100,000 Transplants a year are
24 unaccounted for since the year of 2000 with the Updated 2016 Report,
25 grossly underestimating the previous reports in 2006 of 41,500 unexplained
26 organ transplants. Timeline below with links with over a decade of
27 investigations.
28

Organ Harvesting Time Line

1949- The Chinese Communist Regime takes charge via a Socialist platform. Through the Socialist regime's murder, executions, torture, rape and famines, roughly 100 million people are believed to have died in China alone. Like the miseries of Russia's violent Socialist revolution, academics, artists, free thinkers, businessmen, families, lawyers, judges, democracy activists, and people of faith were sent to concentration camps all across China.

1980's- The Chinese Communist Regime increases organ trafficking initiatives after it passed into law the right of the Socialist Republic to execute prisoners for their organs.

1990s- Reports come out of China that Christians, Uyghurs, and Tibetans were targeted for organ trafficking.

1999- Chinese Communist Regime, at the order of Dictator Jiang Zemin, **brands the Falun Dafa Spiritual practice illegal**, and sends in the military and the security apparatus to target **100 million people** who practiced Falun Dafa (Falun Gong) spiritual method. Untold number of people were arrested, beaten, tortured and put in labor camps. Orders from the regime was to "ruin their reputation, and that "Truth, Compassion and Forbearance were not in line with the CCP. The Socialist Regime publicly stated, "disintegrate them, ruin their reputation, break them financially and destroy them physically". The **Media and its reporters in China were the biggest weaponization tools to cast doubt, create confusion, spread disinformation, slander and incite hatred** on the people who practiced Falun Dafa, that subsequently led to the weaponization of the Chinese Socialist State's security apparatus to torture, rape, organ traffic and commit genocide towards 100 million people and their families.

2005- Chinese hospitals and third-party websites were advertising **48-hour wait times for hearts, kidney's and livers**. The prices were in cash and available for foreigners from around the world to fly into China for transplant.

2006. Canadian Secretary of State, **David Kilgour & Nobel Nominee David Matas**, make public their report. They stated that 41,500 Organ transplants

1 from the year of 2000-2005 are unaccounted for, and that China recorded
2 roughly a donation system of 3,000 people a year.

3 **2007. U.N. Special Rapporteur Manfred Nowak** states that the chain of
4 evidence that Matas and Kilgour were documenting showed “coherent picture
5 that causes concern” and that they wanted to investigate how China could
6 increase the volume of organ transplants to such a high degree since the
7 year 2000. Where the number did not match or come nearly close to the
8 increase of organ donations in China.

9 **2008.** United Nations Committee Against Torture requested “a full
10 **explanation of the source of increased organ transplants**” as there was
11 no explanation to the source

12 **2009-** Matas & Kilgour publish ***Bloody Harvest: The Killing of Falun Gong***
13 **for Their Organs.** Book highlights evidence, methods, and reach. Evidence
14 included taped recording by medical doctors, stating they “have organs from
15 Falun Gong, they are the best and fresh”. Reports also expound on Tibetan,
16 Christians and Uyghurs.

17 **2011-** Western Tech companies begin to be sued for providing technology to
18 the Chinese regime that aided in genocide via human tracking technologies.
19 This tracking helped put Falun Dafa Meditators, Christians, Tibetans and
20 Uyghurs in concentration camps.

21 **2014.** Journalist Ethan Guttmann publishes “The slaughter: Mass Killings,
22 Organ Harvesting and China’s Secret Solution to its Dissident Problem.
23 Guttmann states large numbers of Falun Gong, House Christians, Tibetans &
24 Uyghurs have been killed for their organs. His numbers reach 100,000 people
25 as an estimate.

26 **2016.** Matas, Kilgour & Guttmann publish “**2016 Investigation, An Update**”.
27 They conclude that 60,000-100,000 transplants per year, every year, are
28 unaccounted for and not explained by the Chinese regime. They also
concluded that at any time there could be over a million people in camps
throughout China. <https://endtransplantabuse.org/an-update/>

2016. Congress passes House Resolution 343. “Expressing concern
regarding persistent and credible reports of systematic, state sanctioned
organ harvesting from non-consenting prisoners of conscience in the

practitioners and members of other religious and ethnic minority groups.

§ 1030. Fraud and related activity in connection with computers

Effective: November 16, 2018

14 Google, Alphabet, Deep Mind, Tesla, Neuralink and Facebook used AI
 15 software beyond the reasonable amount needed and in excess, to extract
 16 human bio-metrics, and did so without telling the public the security
 17 implications, hence it was a fraudulent act beyond the accepted scope of their
 18 Artificial Narrow Intelligence Algorithms, coding and other AI systems that
 19 directly and indirectly may relate.

Breach of Arms Control and Disarmament Act [22 U.S.C. 2551 and **Foreign Assistance Act of 1961, as amended [22 U.S.C. 2151.**

22 Google, DeepMind, Tesla, Neuralink, Facebook and Alphabet Did not have
 23 permission from the U.S Government, and congress to transfer technology
 24 that can be and has been used for weapons in china, including the
 25 Weaponization of Robotics, Artificial Intelligence, Quantum Computing, 5G,
 26 bio-metric technology and Civilian private or public data that could be used by
 27 China to hurt people throughout the world financially, culturally, emotionally
 28 and physically. These breaches have contributed to the killing of many
 Chinese citizens, including victims of persecution.

22 U.S. Code § 2752.Coordination with foreign policy

~~Google, Deepmind, Alphabet, Facebook, Tesla and Neuralink Did not give accurate information or get approval from the Secretary of State and the President to transfer Artificial Intelligence, and all other technologies said in this complaint.~~

22 U.S. Code § 2753.Eligibility for defense services or defense articles

~~Google, Deepmind, Alphabet, Facebook, Tesla and Neuralink Defendants did not have eligibility to transfer weapons that could be used for mass destruction, surveillance, including all technologies related to Artificial Intelligence that were transferred to China, Chinese companies or subsidiaries that transferred them to China.~~

22 U.S. Code § 2754.Purnoses for which military sales or leases by the United States are authorized; report to Congress

~~Google, Deepmind, Alphabet, Facebook, Tesla and Neuralink Misused, were negligent and improperly transferred of AI, Machine, Bio-Metric, Bio-engineering and Robotics technology to China. Illegally selling Sophisticated weapons directly and indirectly to China and its corporations, as well as doing Research and Development for China's Sophisticated Weapons programs. These AI and bio-metric weapons systems were used on Chinese victims of persecution, the very people Cyrus A. Parsa and The AI Organization were trying to save.~~

22 U.S. Code § 2755.Discrimination prohibited if based on race, religion, national origin, or sex

~~Google, Deep mind, Alphabet, Facebook, Tesla and Neuralink engaged in discrimination directly and indirectly by Selling to China and Chinese companies who were and are discriminating against their own citizens on the bases of religions, national origin, race and sex, and putting these citizens in camps with surveillance with the use of the very technology provided by Google, Alphabet, Tesla, Neuralink, Deep Mind and other tech companies and persons named as John Doe. They discriminated against the victims of persecution in China that worked on behalf of Cyrus A. Parsa, The AI Organization, his associates and victims of persecution, and organ trafficking. PR Newswire discriminated against Cyrus A. Parsa, The AI Organization, and victims of persecution by censoring The AI Organization's books, reports and articles, and aiding the Chinese government in spreading propaganda and incitement of hatred inside of China with PR Newswires Chinese Subsidiary.~~

22 U.S. Code § 2756. Foreign intimidation and harassment of individuals in United States

Google, Deepmind, Alphabet, Facebook, Tesla and Neuralink Defendants are in breach of this law by doing business with China and its companies who harass and intimidate individuals in the U.S, including Mr. Cyrus A. Parsa, his associates and persecuted victims who escaped China. PR Newswire intimidated other Press Release Companies to not publish Cyrus A. Parsa and The AI Organization's materials.

18 U.S. Code § 1038. False information and hoaxes

Google, DeepMind and Alphabet conveyed false information to the American public and the government about Artificial Intelligence activities in China. Furthermore, Google, Alphabet, and DeepMind conveyed false information in their google internet search engine authorisms and decoding in a way that allowed humanities bio-metrics, thoughts and actions to be misled, misinformed and controlled by the information provided and available by googles AI data and system's, not limited to Artificial Narrow Intelligence.

Comply with the California Electronic Communications Privacy Act pursuant to Chapter 3.6 (commencing with Section 1546) of Title 12 of Part 2 of the Penal Code.

Google, Deepmind, Alphabet, Facebook, Tesla and Neuralink and John Does, Defendants did not properly and accurately comply with the California Electronic Communications Privacy Act, with regards to the public's bio-metrics and its risks associated with Artificial Intelligence as stated throughout this complaint.

A business that collects personal information about consumers shall disclose, pursuant to subparagraph (B) of paragraph (5) of subdivision (a) of Section 1798.130:

Defendants did not accurately disclose to consumers the nature of their data collected as it pertains to the risks of Artificial Intelligence as stated throughout this complaint.

- Defendants Google, Alphabet, Facebook, Neuralink, Tesla, and

1 Deepmind transferred AI technology to China that was used in
 2 concentration camps to detect behavior and noncompliance to the their
 3 captures. Defendants also transferred AI technology to China that was
 4 used to detect if any Chinese citizens were in noncompliance to the
 5 Chinese Socialist Dictatorship, or resistant to the control of Artificial
 6 Intelligence. By doing so, the defendants directly and indirectly caused or
 7 provided the means for China to abuse, torture, rape, and murder its
 8 citizens. Victims include associates of The AI Organization and Cyrus A.
 Parsa, being victims of persecution. These crimes do not exclude Hong
 Kong or anywhere else the technology was used, including the United
 States. I (*Colgate-Palmolive Co.*, 323 N.L.R.B. 515, 515-16 (1997)).

11 **Computer Fraud and Abuse Act (CFAA) 18 U.S.C. § 1030**

12 Google, Facebook, Deepmind and Alphabet, accessed private bio-metric
 13 information on smart phones, computers and IoT's for the purpose of building
 14 their quantum computing and artificial intelligence projects, without
 15 permission from the user, including Cyrus A. Parsa, victims of persecution,
 16 The AI Organization, John Doe Defendants and humanity at large. By doing
 this, they have put humanity at risk from nefarious actors, China, and the AI
 systems belonging to Google, Facebook, Deepmind and Alphabet.

17 Google, Deepmind Alphabet and Facebook are in violation of FTC act by
 18 "Failing to provide reasonable and appropriate **security** measures for
 19 sensitive consumer information they hold.". They have put peoples at risk,
 20 and many have died in China, and including victims of persecution, directly
 21 resulting from Google, Deepmind, Facebook and Alphabet bio-metric

 28 **facilitate the use of electronic records and electronic**
signatures in interstate and foreign commerce by ensuring the validity and
legal effect of contracts entered into electronically.

1 Google, Alphabet, Facebook and Deepmind Failure to obtain electronic
2 signature from consumers and explain therein, the ramifications of their bio-
3 metrics being extracted from Google, Facebook, Deepmind and Alphabet for
4 their artificial intelligence machine. This failure has endangered humanity,
5 specifically the victims of persecution, associates and members of the AI

8 governance documents, Alphabet's business is subject to state, federal, and
9 international data protection laws and regulations, and compliance with those

11 to timely disclose the Google+ breach likely violated many of those protective
12 regimes. 188. In particular, the Consent Decree specifically prohibits
13 misrepresentations about the efficacy of privacy controls, including user
14 controls over who may access their data. Defendants knew, or should have

26 Google, Facebook, Deepmind, Nueralink and Alphabet's Algorithms and bias

1 creating algorithms that are designed to social engineer humans to accept the
 2 next stage of cybernetic alterations to humans, thus putting humanity under
 3 physical genocide without their free willed choice, as Googles algorithms and
 4 coding use bio-metric frequencies that bio-engineer humans through
 5 frequencies being sent to the neural networks of humans that alter its
 6 operating structure and brain chemistry, thus altering its thinking to accept a
 7 parasitical and symbiotic relationship of artificial intelligence and machines.

14 Alphabet, Google, Facebook, Deepmind and Nearalink seek to destroy to
 15 human race and all its people, and erase their ethnic, national, religious, and
 16 human characteristics. They have done this in part through their Artificial
 17 Narrow Intelligence as it attaches to smart phones, IoT, computers and
 18 networks, and now the AI System is engaging in an AI system that is on the
 19 verge to destroy humanity in whole on the 5G network, by changing
 20 humanities culture and brain chemistry to a point that their thoughts are
 21 altered to accept mixing with machines. Moreover, The Artificial Intelligence
 22 Narrow systems from Google and Facebook have contributed to sex, human
 23 and organ trafficking by providing Artificial Intelligence Algorithms and coding
 24 that exponentially enhance the affects of pornography and violent content
 25 provided on Google's platform, that changes the brain chemistry of individuals
 26 in ways that they are more likely to engage in those activities. Furthermore,
 27 they have harmed John Does related to The AI Organization, Cyrus A. Parsa,
 28 and all of humanity having algorithms that make bringing awareness to these
 very sophisticated realities, almost impossible. Defendants Facebook and

4 Promoting Private Sector Cybersecurity Information Sharing

5 February 13, 2015

6 *9349 By the authority vested in me as President by the Constitution and the
7 laws of the United States of America, it is hereby ordered as follows:

8 Section 1. Policy. In order to address cyber threats to public health and
9 safety, national security, and economic security of the United States, private
10 companies, nonprofit organizations, executive departments and agencies
11 (agencies), and other entities must be able to share information related to
12 cybersecurity risks and incidents and collaborate to respond in as close to
13 real time as possible.

14 Organizations engaged in the sharing of information related to cybersecurity
15 risks and incidents play an invaluable role in the collective cybersecurity of
16 the United States. The purpose of this order is to encourage the voluntary
17 formation of such organizations, to establish mechanisms to continually
18 improve the capabilities and functions of these organizations, and to better
19 allow these organizations to partner with the Federal Government on a
20 voluntary basis.

21 Such information sharing must be conducted in a manner that protects the
22 privacy and civil liberties of individuals, that preserves business
23 confidentiality, that safeguards the information being shared, and that
24 protects the ability of the Government to detect, investigate, prevent, and
25 respond to cyber threats to the public health and safety, national security, and
26 economic security of the United States.

27 This order builds upon the foundation established by Executive Order 13636
28 of February 12, 2013 (Improving Critical Infrastructure Cybersecurity), and
Presidential Policy Directive-21 (PPD-21) of February 12, 2013 (Critical
Infrastructure Security and Resilience).

Policy coordination, guidance, dispute resolution, and periodic in-progress
reviews for the functions and programs described and assigned herein shall
be provided through the interagency process established in Presidential
Policy Directive-I (PPD-I) of February 13, 2009 (Organization of the National
Security Council System), or any successor.

1
2 Sec. 2. Information Sharing and Analysis Organizations. (a) The Secretary of
3 Homeland Security (Secretary) shall strongly encourage the development and
4 formation of Information Sharing and Analysis Organizations (ISAOs).

5 (b) ISAOs may be organized on the basis of sector, sub-sector, region, or any
6 other affinity, including in response to particular emerging threats or
7 vulnerabilities. ISAO membership may be drawn from the public or private
8 sectors, or consist of a combination of public and private sector organizations.
9 ISAOs may be formed as for-profit or nonprofit entities.

10 (c) The National Cybersecurity and Communications Integration Center
11 (NCCIC), established under section 226(b) of the Homeland Security Act of
12 2002 (the "Act"), shall engage in continuous, collaborative, and inclusive
13 coordination with ISAOs on the sharing of information related to cybersecurity
14 risks and incidents, addressing such risks and incidents, and strengthening
15 information security systems consistent with sections 212 and 226 of the Act.

16 (d) In promoting the formation of ISAOs, the Secretary shall consult with other
17 Federal entities responsible for conducting cybersecurity activities,
18 y9350including Sector-Specific Agencies, independent regulatory agencies at
19 their discretion, and national security and law enforcement agencies.

20 Sec. 3. ISAO Standards Organization. (a) The Secretary, in consultation with
21 other Federal entities responsible for conducting cybersecurity and related
22 activities, shall, through an open and competitive process, enter into an
23 agreement with a nongovernmental organization to serve as the ISAO
24 Standards Organization (SO), which shall identify a common set of voluntary
25 standards or guidelines for the creation and functioning of ISAOs under this
26 order. The standards shall further the goal of creating robust information
27 sharing related to cybersecurity risks and incidents with ISAOs and among
28 ISAOs to create deeper and broader networks of information sharing
nationally, and to foster the development and adoption of automated
mechanisms for the sharing of information. The standards will address the
baseline capabilities that ISAOs under this order should possess and be able
to demonstrate. These standards shall address, but not be limited to,
contractual agreements, business processes, operating procedures, technical
means, and privacy protections, such as minimization, for ISAO operation
and ISAO member participation.

(b) To be selected, the SO must demonstrate the ability to engage and work
across the broad community of organizations engaged in sharing information

1 related to cyber security risks and incidents, including ISAOs, and
2 associations and private companies engaged in information sharing in
3 support of their customers.

4 (c) The agreement referenced in section 3(a) shall require that the SO
5 engage in an open public review and comment process for the development
6 of the standards referenced above, soliciting the viewpoints of existing
7 entities engaged in sharing information related to cybersecurity risks and
8 incidents, owners and operators of critical infrastructure, relevant agencies,
9 and other public and private sector stakeholders.

10 (d) The Secretary shall support the development of these standards and, in
11 carrying out the requirements set forth in this section, shall consult with the
12 Office of Management and Budget, the National Institute of Standards and
13 Technology in the Department of Commerce, Department of Justice, the
14 Information Security Oversight Office in the National Archives and Records
15 Administration, the Office of the Director of National Intelligence, Sector-
16 Specific Agencies, and other interested Federal entities. All standards shall
17 be consistent with voluntary international standards when such international
18 standards will advance the objectives of this order, and shall meet the
19 requirements of the National Technology Transfer and Advancement Act of
20 1995 (Public Law 104-113), and OMB Circular A-119, as revised.

21 Sec. 4. Critical Infrastructure Protection Program. (a) Pursuant to sections
22 213 and 214(h) of the Critical Infrastructure Information Act of 2002, I hereby
23 designate the NCCIC as a critical infrastructure protection program and
24 delegate to it authority to enter into voluntary agreements with ISAOs in order
25 to promote critical infrastructure security with respect to cybersecurity.

26 (b) Other Federal entities responsible for conducting cybersecurity and
27 related activities to address threats to the public health and safety, national
28 security, and economic security, consistent with the objectives of this order,
may participate in activities under these agreements.

(c) The Secretary will determine the eligibility of ISAOs and their members for
any necessary facility or personnel security clearances associated with
voluntary agreements in accordance with Executive Order 13549 of August
18, 2010 (Classified National Security Information Programs for State, Local,
Tribal, and Private Sector Entities), and Executive Order 12829 of January 6,
1993 (National Industrial Security Program), as amended, including as
amended by this order.

1
2
3 Sec. 5. Privacy and Civil Liberties Protections. (a) Agencies shall coordinate
4 their activities under this order with their senior agency officials for privacy
5 and civil liberties and ensure that appropriate protections for privacy and
6 *9351 civil liberties are incorporated into such activities. Such protections
7 shall be based upon the Fair Information Practice Principles and other privacy
8 and civil liberties policies, principles, and frameworks as they apply to each
9 agency's activities.

10 (b) Senior privacy and civil liberties officials for agencies
11 engaged in activities under this order shall conduct assessments
12 of their agency's activities and provide those assessments to the
13 Department of Homeland Security (DHS) Chief Privacy Officer
14 and the DHS Office for Civil Rights and Civil Liberties for
15 consideration and inclusion in the Privacy and Civil Liberties
